## June Webinar

As part of our webinar series, we are excited to announce our June presentation: "**Creating a Student Employee Timeline for Career Readiness Development**", scheduled for June 22nd at 11 AM CST. These webinars are provided at no cost to our membership, so don't delay in registering!

Iowa State University has spent the last several years developing a career readiness framework for student employees. Join us as we take a deep dive into how Recreation Services at ISU implements and utilizes career readiness competencies. Recreation Services has created a timeline of success for student employees that starts at onboarding and concludes with a final evaluation. Each step of the process will be highlighted during the webinar.

Jason Vlastaras has served as the Associate Director of Student Success since 2017. His portfolio includes oversight of the four program areas within Recreation Services, as well as the development and implementation of student employee development initiatives.
